# CONTENTS

|   |    |
|---|----|
| Introduction to Control .....   | 1  |
| 1. Designing and making a thermochromic display .....                           | 3  |
| 2. Designing and making a smart card control system ....                        | 13 |
| 3. Designing and making an electronically<br>controlled dispensing system ..... | 23 |
| 4. Designing and making a motor speed controller .....                          | 35 |
| 5. Designing and making an automatic water<br>level control system .....        | 55 |
| 6. Designing and making an electronic lock system .....                         | 71 |

## STUDY FILES

|   |     |
|---|-----|
| 1. Design checklist .....   | 85  |
| 2. Making a printed circuit board .....   | 89  |
| 3. What is control? .....   | 97  |
| 4. Writing about control .....  | 103 |
| 5. Investigating control .....  | 105 |
| 6. Industrial visit record card .....   | 117 |
| 7. Switches in control .....  | 119 |
| 8. Potentiometers in control .....  | 125 |
| 9. What is a transducer? .....  | 127 |
| 10. Temperature sensors and controlling temperature ....                                    | 129 |
| 11. Light sensors and controlling light levels .....  | 135 |
| 12. Liquid flow sensing and flow control .....  | 141 |
| 13. Liquid sensing and control .....  | 147 |
| 14. Controlling pumps .....   | 149 |
| 15. Controlling position and movement .....   | 151 |
| 16. Design briefs: environmental monitoring and<br>control in a commercial greenhouse. .... | 169 |
| 17. Smart card controllers .....  | 175 |
| 18. Maths help .....  | 199 |

|                             |            |
