

# TEP Latest Technology in Practice

**T**EP is pleased to announce the publication of a revised and greatly enlarged edition of the popular Young Technologist's Handbook. Now published in full colour by John Murray, this pioneering book offers the same wealth of look up information but goes much further in offering factual data on components, mechanical devices and constructional materials. It also offers more

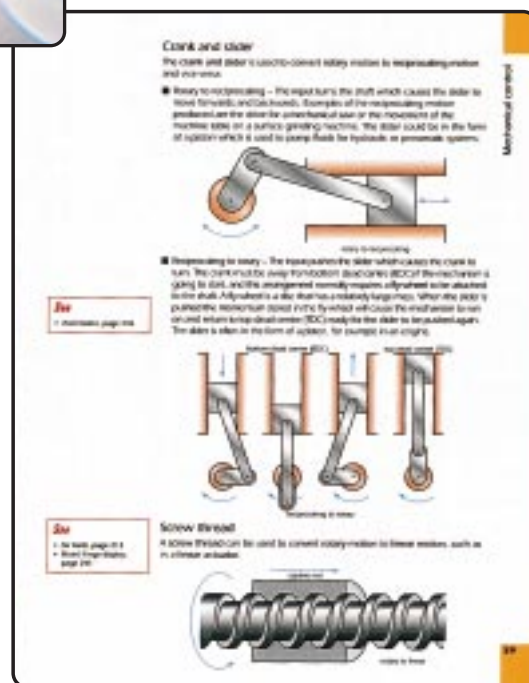

The book also has a completely new section giving thumbnail sketches of 26 design and make tasks taken from other TEP publications. These can be easily adapted as focused activities or provide springboards for more advanced open-ended work.

Technology in Practice is over 250 pages long. It is available directly from the publisher.

small miracles of technology case studies ranging from apparently simple plastic screw bottle tops to folding umbrellas.

Each of these has the potential to become a complete lesson in product design and manufacturing technology.
