

# BBC Tomorrow's World Live 2001

At this summer's Tomorrow's World Live Event at Earl's Court, nearly 4000 young people made and took home their very own Jitterbugs. At their stand, BBC Techno games and the Technology Enhancement Programme presented the world of robotics to visitors to the event. They were joined on the stand by some of the most successful roboteers from Techno games 2000.

## D&T with ICT Show, November 2001

*The TEP team will once again be present at the D&T Show at the NEC in Birmingham. The Show, running from 8-10 November is specifically targeted at the D&T teacher. For the first time, TEP will not only be presenting a wide-range of new CAD/CAM and electronics resources, but will also be running free training sessions for both new and experienced teachers to enable them to make the most of the latest resources in their classroom teaching.*
